

Spring/Summer Collection 2027

Highlights

Nowadays all the world of communication is focused on the theme of sustainability in all its forms and facets.

Reaching this goal , 3C Company offers:

- Raw cotton/linen fabrics, including slub, purged and sanforized fabric, to reach a "nature" look, entirely bleached cotton/linen fabrics, also slub and cotton/silk, for garment dyeing or printing.
- greige, bleached, piece-dyed fabrics, made entirely with organically grown cotton yarn, GOTS certified.

We have been certified GOTS

- greige, bleached, piece-dyed fabrics, made with 50% recycled 50% bio organic cotton yarn, GRS certified.
- fabrics made with colored cotton yarn, regenerated by fraying of colored scraps, mixed with virgin cotton for its capacity to be spun into yarn
- fabrics made with regenerated cotton/polyester

The naturalness persists with the historical presence of high quality cottons and linen, pure or in blend with cotton.

Fantasy and pattern are proposed in jacquard fabrics, embossed and plain, sometimes enriched by Lamè.

The openwork, the transparency and the nets are developed in various articles designed with holes, of small and medium size, obtained using only knitting techniques.

"Lace" designs are made of 100% cotton, cotton / ea, cotton / pa and 100% pa.

- Fabrics designed with hem and separations for a summer patterned cotton knitwear.
- Multicolor striped embossed cotton fabrics
- The light summer "scuba".

“Made in Italy”

Knitting, Dyeing &, Finishing - Fabrics entirely made in Italy

6908 terry-clot

6912 jacquard

PERFORMANCE: The "ready to dye"

6766 DOUBLE

6606 piquet malfilè

The "ready to dye" division is supported by more than 50 fabrics sell in "stock service", which are present in every collections but every season enriched by new proposals.

Most of our cotton fabrics belonging to the other collection themes may be used for this purpose too.

THIN: the thinnest....

The products made out of very thin yarns by very thin knitting needles, offer an excellent cover up and consistency with exiguous weights. Belonging to this series are fabrics stretched or not, made out of natural fibers so far as synthetic and artificial fibers. The versatile "Thin" series includes cottons, viscose, micromodal, polyamide and polyester, which can easily find their applications within underwear, shapewear, performance/technical sportswear and fashion garments.
